

Simplifying the Business of Healthcare

2011 Clinically Preferred Drug List

1st Quarter Edition

Last Revised: 01/12/2011

Table of Contents

OVERVIEW	4	BLOOD MODIFIERS	13
COVERAGE LIMITATION	4	Anticoagulants / Heparin Related Products	13
DESI DRUGS	4	Platelet Aggregation Inhibitors	13
SELECTION PROCESS FOR PRODUCTS	5	Hematopoietic Agents, Iron Replacement	13
PREFERRED BRAND PRODUCTS	5	CARDIOVASCULAR (HEART) AGENTS	14
GENERIC SUBSTITUTION	6	Alpha & Beta Blockers	14
SINGLE SOURCE GENERICS	6	Beta Blockers with Diuretics	14
NON-LISTED DRUGS & DRUG CATEGORIES	6	Calcium Channel Blockers (CCBs)	14
PRIOR AUTHORIZATION PROCESS	7	ACE Inhibitors & ACE Inhibitors / CCB Combinations	15
SPECIALTY PHARMACY PRODUCTS	7	A-2 Antagonists (ARBs) / A-2 Antagonists w/ Diuretics	15
FORMULARY MODIFICATIONS & COMMENTS	7	Renin Inhibitors	16
ANTIBIOTICS	8	Miscellaneous Combinations	16
Penicillins & Cephalosporins	8	Antiarrhythmics/Anti-Ischemic	16
Tetracyclines	8	Cardiac Glycosides	16
Macrolides & Clindamycins	8	Vasodilators, Coronary, Nitrates/ Vasodilators, Sympatholytics	16
Sulfonamides, Sulfones & Ketolides	8	ANTIHYPERTENSIVE (CHOLESTEROL) AGENTS	17
Miscellaneous Antibiotics	8	Statins & Statin/CCB Combinations	17
Quinolones	9	Bile Acid Sequestrants, Liver Agents	17
Antivirals	9	Fibrates	17
ANTI-INFECTIVES	9	Other Agents	17
HIV Antiviral Agents	9	PANCREATIC AGENTS	17
Amebicides, Trichomonacides	10	KIDNEY & URINARY / UROLOGICAL AGENTS	18
Antiparasitics	10	Diuretics	18
Antimalarials & Antiprotozoals	10	Benign Prostate Hyperplasia	18
Anthelmintic Agents	10	Urologic Agents	18
Leprostatic Agents	10	Erectile Dysfunction Agents	18
Antifungals	10	Gout Agents – Purine Inhibitors	19
ANTIEMETIC (NAUSEA) AGENTS	11	Urinary Ph Modifiers	19
NEUROLOGIC AGENTS	11	Electrolyte Depleters	19
Anti-Parkinsons Agents	11	Potassium & Electrolytes	19
Anti Migraine Agents	11	MUSCLE RELAXANTS	19
Alzheimers Agents	12	OSTEOPOROSIS (BONE) AGENTS	20
Anti-Convulsants	12	ANTI-INFLAMMATORY / ANALGESIC (PAIN) AGENTS	20
Fibromyalgia Agents	12	Anti-Inflammatory Agents (NSAIDS)	20
		COX-II Agents	21
		Analgesics, Narcotics	21
		Analgesics, Salicylates & Non-Salicylates	21
		Pain Medications, Other	21

CENTRAL NERVOUS SYSTEM AGENTS	22	DERMATOLOGICAL (SKIN) AGENTS	33
Anti-Anxiety Agents	22	Acne, Rosecea & Seborrhea Products (Oral & Topical)	33
Sedative/Hypnotic Agents (Non-Barbituate)	22	Psoriasis Agents (Oral & Topical)	33
Sedative/Hypnotic Agents (Barbituate/CNS)	22	Antifungals & Antipruritics (Oral & Topical)	33
ADD/ADHD / Narcolepsy / Adrenergics	22	Keratolytics / Wound Care Agents	34
Serotonin Selective Reuptake Inhibitors (SSRIs)	23	Emollients	34
Serotonin-Norepinephrine Reuptake Inhibitors (SNRIs)	23	Scabies & Pediculosis Agents	34
SSRI / Anti-Psychotic Combinations	23	Topical Immunosuppressive Agents (Non-steroidal)	34
Monoamine Oxidase Inhibitors (MAOIs)	23	Topical Anti-Infectives & Steroids	35
Antidepressants, Others	23	Topical Local Anesthetics & Analgesics	35
Antipsychotic Agents	24	Other Topical Products	35
Atypical Antipsychotic Agents	24		
Bipolar Disorders (Anti-mania)	24	VAGINAL AGENTS	36
GASTROINTESTINAL AGENTS	25	Vaginal Antibiotics / Sulfonamides	36
Anti-Ulcer / GERD, H. Pylori Agents	25	Vaginal Antifungals	36
Anti-Spasmotic Agents (Anticholinergics)	25		
Bowel & Colon Inflammatories	25	OPHTHALMIC (EYE) AGENTS	36
Irritable Bowel Syndrome (IBS) Agents	25	Ophthalmic Antibiotics & Sulfonamides	36
Laxatives & Cathartics	25	Ophthalmic Antivirals	36
		Ophthalmic Antihistamines	37
CONTRACEPTIVES & HORMONE THERAPY AGENTS	26	Ophthalmic Immunomodulators	37
Contraceptives	26	Ophthalmic Anti-Inflammatory Agents	37
Estrogens (Hormone Replacement)	26	Ophthalmic Mast Cell Stabilizers	37
Estrogen Combinations	27	Ophthalmic Vasoconstrictors	37
Androgenic Agents	27	Ophthalmic Miotics (Glaucoma)	38
Progestinal Agents	27	Ophthalmic Mydriatics	38
Fertility Agents (Orals)	27	Ophthalmic Antibiotic/Corticoid Combination Agents	38
PRE-NATAL VITAMINS	28	OTIC (EAR) AGENTS	39
CORTICOSTEROIDS, THYROID MEDICATIONS	28	MISCELLANEOUS PRODUCTS	39
Corticosteroids / Mineralocorticoids (Systemic)	28	Alcohol & Opioid Dependency Agents	39
Anti-Thyroid & Thyroid Replacements	28	Dental Preparations	39
		Hyperparathyroid Agents	39
DIABETES AGENTS	29	Parasympathetic Agents	40
Insulins – Synthetic, Human, Injectibles	29	Smoking Cessation Products	40
Oral Anti-Diabetics / Thiazolidinediones / Combinations	29		
Anti-Diabetes Injectibles	29	IMMUNOSUPPRESSANT AGENTS	40
		Immunosuppressants	40
DIABETIC PRODUCTS	30	Immunomodulators	40
Diabetic Supplies	30		
Urine Glucose / Ketone Strips	30	SPECIALTY PRODUCTS & SUPPLIES	41
Hyperglycemic Agents	30	Hepatitis Treatment Agents	41
Medical Supplies	30	Antipsoriatic Agents	41
		Human Growth Hormones (HGH)	41
RESPIRATORY AGENTS	31	Multiple Sclerosis (MS) Agents	42
Allergy Medications	31	Rheumatoid Arthritis Agents	42
Asthma Agents	31	Lung Affecting Agents	42
Glucocorticoid Steroids / Inhalers & Intranasal	32		
COPD Agents	32		
Theophyllin Agents	32		
Antitussive Agents	32		
Respiratory Agents & Devices	32		

Preface

Overview

The **Clinically Drug Preferred List** is a continually updated list of prescription medications that represents the current clinical judgement of providers and experts in the diagnosis and treatment of disease. This Clinically Preferred Drug List contains additional prescribing and clinical information that assists health care professionals in promoting the highest quality affordable care to patients. This document represents the efforts of our clinical team to provide physicians, pharmacists and/or members with a method to evaluate the various drug products available. The Clinically Preferred Drug List shows both the generic and brand names for reference and convenience. Some plan sponsors, HMOs or Health Plans, or Employers may be provided the option of imposing further restrictions or choose not to reimburse some products listed in the **Clinically Preferred Drug List**.

Additionally, as drug prices increase and utilization grows, tightening the formulary to limit selection to preferred products has become more critical. Our clinicians work together to create a balanced formulary offering the very best clinical products that (1) are effective, (2) are efficacious, (3) are safe, (4) have the fewest side effects, and (5) are provided at the best price. The Formulary Changes & Comments section located on page 7 provides a quick glance of the changes that are being made in the **Clinically Preferred Drug List** to maintain a fine balance.

Coverage Limitation

The **Clinically Preferred Drug List** does not provide information regarding specific coverage and limitations, nor specific exclusions, copays, or a lack of coverage that a member may have assigned at plan level. The **Clinically Preferred Drug List** applies only to outpatient drugs provided to members, and does not apply to medications used in the in-patient setting. All applicable dosage forms and strengths of a particular drug are included in the Clinically Preferred Drug List under the specific entry unless otherwise noted and listed separately.

Desi (drug efficacy study implementation) Drugs

DESI designated drugs are those drugs first marketed between 1938 and 1962 that were approved as safe but were not required to prove effectiveness for FDA product approval. The DESI Program was implemented to determine which of these designated drugs could indeed claim in clinical trials, effectiveness for their specific indications. A few DESI drugs remain classified as less than effective while awaiting final administrative disposition. Many products listed as identical, similar, or related to actual DESI drugs may also be classified as DESI. Some pharmacy benefit reimbursement plans may not pay for DESI drug products.

Selection Process for Products on the Clinically Preferred Drug List

New agents are constantly being developed and approved by the FDA for the treatment of the different disease states. Due to vast availability of medication therapies and treatments, a reasonable process of drug selection and drug usage has been developed. The goal of the Clinically Preferred Drug List is to enhance the physicians' and pharmacists' abilities to provide optimal cost-effective drug therapies to patients.

The development, maintenance, and improvement of the Clinically Preferred Drug List are evolutionary processes that require the constant attention of our P&T Committee. The Clinically Preferred Drug List is a continually reviewed and revised list of drug products that mirrors the prevailing clinical opinion of the P&T Committee. Unfortunately, this dynamic process does not allow this document to be completely accurate in official print at all times although it is always available in PDF format. Due to introduction of new brand and generic products, a book may only be printed once annually with updates being provided as necessary through newsletters and updates made readily available on the Internet for physicians, pharmacists and plan sponsors.

New agents being considered for formulary inclusion will be reviewed for their safety, efficacy, FDA-approved indications, contraindications, side effects, pharmacokinetic profile, patient compliance potential, drug cost and effects on other indirect health costs. A thorough medical literature review will place an emphasis on the following characteristics:

- Safety and Effectiveness of Product
- Comparison Studies with Similar Products if available
- Potential for Patient Clinical or Utilization Abuse
- Therapeutic Outcomes and Pharmaco-economic Data

Agents that are given a "priority" review by the FDA will be immediately reviewed for possible inclusion into the formulary, in as little as 48 hours if necessary. New drugs will have their characteristics compared to other similar agents within a therapeutic class if possible. New drugs that are added to an existing therapeutic class may result in the deletion of other drug(s) within a particular therapeutic class as clinical application warrants. This process ensures and promotes the selection of the most clinically useful and cost-effective agents within a specific therapeutic class.

Preferred Brand Products

Drugs that are added to the Clinically Preferred Drug List indicate that the specific drug offers a clinical and/or cost advantage over existing comparable non-preferred formulary branded drugs. Drugs will not be placed on the Clinically Preferred Drug List if there currently is insufficient clinical information to determine its appropriate clinical effectiveness. Other drugs not included in this book are: any non-preferred or non-formulary products; drugs proven to be clinically ineffective; extremely cost ineffective, or cause adverse health conditions; and high cost drug therapies that require Prior Authorization and utilization management.

Single source generics, generics that are available from only one source, may be considered non-preferred brands with either generic or non-preferred brand copays depending on their price. Such drugs are noted with a [SSG] next to their generic name.

Generic Substitution

When available, FDA approved lower cost generic drugs should be used regardless of the brand name indicated. The brand names listed under the “Generic Drugs” column are for reference use only and do not guarantee coverage. This policy is not meant to preclude any state statutes that may exist (e.g., Non-Substitutable Drugs). Inclusion of a drug product for generic substitution is subject to the following:

- An FDA Rating of "A" for generic equivalency as well as thorough review by the P&T Committee for efficacy and safety
- Certain drug products with complex pharmacokinetics, dosage forms, narrow therapeutic indexes **MAY** not typically subject to substitution. These products may include: **Digoxin, Conjugated Estrogen (Premarin), Chlorpromazine (solid oral dosage forms), Theophylline (controlled release dosage forms) and Levothyroxine.**

Brand drugs listed under the “Generic Drugs” column should be considered as non-preferred brands as there is a generic equivalent readily available. However, brand drugs listed under the “Generic Drugs” column that have a caret (^) are preferred brand drugs with preferred copays although the generic equivalents will have a lower copay.

Single Source Generics

Upon patent expiration, brand products become available from one or more generic manufacturers. If the brand product becomes available from one generic manufacturer – typically for a period of exclusivity of 6 months – the product is called a “Single Source Generic” or SSG. If the brand product becomes available from many generic manufacturers, the brand product is then called a “Multi-Source Brand” or MSB, while the generic product is called a “Multi-Source Generic” or MSG.

While a generic product is a SSG, the price of the product may only be 20%-30% cheaper than the original brand product. During this time, at the clinical team’s recommendation, the SSG may be priced according to one of the following algorithms:

- GENERIC discounts with a GENERIC copay billed to the member
- GENERIC discounts with a BRAND copay billed to the member
- BRAND discounts with a BRAND copay billed to the member

As drugs change constantly, the algorithms are not listed in this book.

Non-Listed Drugs & Drug Categories

Drugs not specifically listed in the book should be deemed either as “non-preferred” or “non-formulary” and may require additional member contribution or “copay”. Drug categories that are not specifically listed in the book are generally categories of lower utilization comprised of categories where generic products are readily available (i.e. cough & cold) and shall be driven by plan design if covered.

Prior Authorization Process

Some drug products may require approval called “prior authorization” when the member presents a prescription for that drug product. In other cases, another drug may be required to be used first (called a “step edit”) before the drug prescribed may be covered. Note that the required drug will be indicated with an ^{SE}. The following general criteria are used before a Prior Authorization will be issued:

1. The patient has failed an appropriate trial of other clinically Preferred Branded Drugs (possibly one requiring a step edit)
2. The use of a Preferred Branded Drug may provoke an underlying condition, which would be detrimental to patient care.
3. Injectable, chemotherapy, supplies for infusion, and nutritional supplements **may** require a special request be filled out and faxed to the plan sponsor for authorization. Please indicate if the supplies need to be sent to the physician office or the member.

Specialty Pharmacy Products

The P&T Committee, using current medical literature, has developed a “specialty” pharmacy product formulary comprised of higher cost medications. While not all “specialty” products within the assigned class are therapeutically bio-equivalent, the classifications were determined to group together higher cost agents used for similar treatments.

The specialty pharmacy product formulary is available from your account manager.

Formulary Changes

Changes may be made to this Clinically Preferred Drug List at any time based on availability or market conditions. New drugs recently approved by the FDA that have been added to the Clinically Preferred Drug List are added as Non-Preferred Brands until they are reviewed by the P&T Committee unless the clinical team determines that the product is a “line extension”.

Drugs that are NOT listed in this book where the competitors *are* included should be considered excluded or not covered.

Antibiotics

GENERIC DRUGS	PREFERRED BRANDS	NON- PREFERRED BRANDS
<p>Penicillins & Cephalosporins</p> <p>Amoxicillin / Amoxil Amoxicillin Potassium Clavulanate / Augmentin/ES/XR Ampicillin / Omnipen, Polycillin Cefaclor / Ceclor, Ceclor CD Cefadroxil / Duricef, Ultracef Cefdinir / Omnicef Cefuroxime Axetil / Ceftin, Ceftin Suspension Cephalexin / Keflex, Biocef, Zartan Cephradine / Velosef Cefpodoxime Proxetil / Vantin Cefprozil / Cefzil Dicloxacillin / Dynapen Penicillin VK / Veetids, V-Cillin K</p>		<p>Cedax (Ceftibuten) Spectracef (Cefditoren Pivoxil) Suprax (Cefixime)</p>
<p>Tetracyclines</p> <p>Doxycycline / Vibramycin, Monodox, Vibra-Tabs Minocycline / Minocin, Dynacin, Solodyn Tetracycline / Sumycin</p>	<p>Adoxa Pak' (Doxycycline Monohydrate)</p>	<p>Doryx (Doxycycline Hyclate) Oracea (Doxycycline Monohydrate)</p>
<p>Macrolides, Clindamycins & Ketolides</p> <p>Azithromycin / Zithromax, Z-Max Clarithromycin / Biaxin XL Clindamycin / Cleocin Erythro-Base / Ery-Tab, E-mycin Erythro-Estolate / Ilosone Erythro-Ethylsuccinate / E.E.S., Eryped Erythro-Stearate / Erythrocin Erythro & Sulfa / Pediazole Clarithromycin / Biaxin</p>		<p>Ketek (Telithromycin)</p>
<p>Sulfonamides, Sulfones & Nitrofurantoin</p> <p>Nitrofurantoin / Macrochantin Sulfa-Trimethoprim / Septra, Bactrim/DS Sulfasalazine / Azulfidine</p>		<p>Furadantin Liquid (Nitrofurantoin) Gantrisin Ped(Sulfisoxazole) Macrochantin (Nitrofurantoin Macro)</p>
<p>Miscellaneous Antibiotics</p>	<p>Xifaxan (Rifamixin)</p>	<p>Vancocin (Vancomycin) Zyvox (Linezolid)</p>

Antibiotics (Continued)

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
Quinolones Ciprofloxacin / Cipro , Cipro XR Ofloxacin / Floxin	Avelox¹ (Moxifloxacin)	Factive (Gemifloxacin) Levaquin (Levofloxacin) Noroxin (Norfloxacin)
Antivirals Acyclovir / Zovirax Amantadine / Symmetrel Famciclovir / Famvir Ganciclovir / Cytovene Rimantadine / Flumadine Valacyclovir / Valtrex	Relenza (Zanamivir) Tamiflu (Oseltamivir) Virazole (Ribavirin)	

Anti-Infectives

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
HIV Antiviral Agents Didanosine / Videx Zidovudine / Retrovir	All Single Source Brand HIV Antiviral Agents	

- *Megace* & **Megace ES** only recommended for appetite enhancement due to significant weight loss in patients with anorexia, cachexia or AIDS

Anti-Infectives (Continued)

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
Amebicides, Trichomonacides Metronidazole / Flagyl , Protostat Paromomycin Sulfate / Humatin	Tindamax (Tinidazole) Yodoxin (Iodoquinol)	Flagyl ER (Metronidazole)
Antiparasitics Colloidal Sulfur Powder	Alinia (Nitazoxanide)	
Antimalarials & Antiprotozoals Chloroquine Phosphate / Chloroquine / Aralen Doxycycline / Vibramycin , Monodox , Vibra-Tabs Hydroxychloroquine / Plaquenil , Quineprox Mefloquine / Lariam Quinine Sulfate	Malarone (Atovaquone / Proguanil)	Daraprim (Pyrimethamine) Fansidar (Pyrimethamine/Sulfadoxamine) Halfan (Halofantrine) Primaquine (Primaquine Phosphate) Qualaquin (Quinine Sulfate)
Anthelmintic Agents Mebendazole / Vermox	Albenza (Albendazole) Biltricide (Praziquantel) Mintezol (Thiabendazole) Stromectol (Ivermectin)	
Leprostatic Agents	Dapsone (Dapsone) Thalomid (Thalidomide)	
Antifungals (Systemic) Micronase Griseofulvin / Grifulvin V Nystatin / Mycostatin Clotrimazole / Mycelex Troches Fluconazole / Diflucan Itraconazole / Sporanox Ketoconazole / Nizoral Terbinafine / Lamisil Voriconazole / Vfend	Noxafil (Posaconazole)	Ancobon (Flucytosine) Sporanox Oral Solution (Itraconazole)

Antiemetic, Anti-Parkinsons & Anti-Migraine Agents

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
<p>Antiemetics</p> <p>Dronabinol / Marinol Granisetron / Kytril Meclizine / Antivert, Vertin Ondansetron / Zofran, Zofran ODT Prochlorperazine / Compazine Promethazine HCL / Phenergan Trimethobenzamide / Tigan</p>	<p>Emend' (Aprepitant) Transderm-Scop Patch (Scopolamine)</p>	<p>Anzemet (Dolasetron) Cesamet (Nabilone) Sancuso Patch (Granisetron) Zuplenz Film (Ondansetron)</p>
<p>Anti-Parkinsons Agents</p> <p>Amantadine / Symmetrel Benzotropine / Cogentin Bromocriptine / Parlodel Carbidopa/Levodopa / Sinemet/CR, Parcopa Pramipexole / Mirapex Ropinirole / Requip</p>	<p>Azilect' (Rasagiline) Comtan (Entacapone) Mirapex ER' (Pramipexole) Requip XL' (Ropinirole) Stalevo (Carbidopa/Levodopa/Entacapone)</p>	<p>Apokyn Injectable (Apomorphine) Tasmart (Tolcapone) Zelapar Rapitab (Selegiline)</p>
<p>Anti-Migraine Agents</p> <p><u>Triptans:</u> Sumatriptan Tablets / Imitrex Naratriptan / Amerge</p> <p><u>Ergotamines / Other:</u> Aspirin or Butalbital/Caff / Fiorinal APAP/Butalbital/Caff / Fioricet Ergotamine/Caffeine / Cafergot Isometheptene / APAP Combo / Midrin, Migralam Dihydroergotamine/ DHE 45</p>	<p><u>Triptans:</u> Frova' (Frovatriptan*) Maxalt/MLT' (Rizatriptan) Treximet' (Sumatriptan/Naproxen Sodium)</p> <p><u>Ergotamines / Other:</u></p>	<p><u>Triptans:</u> Alsuma Injection (Sumatriptan) Axert (Almotriptan) Imitrex Spray & Inject (Sumatriptan) Relpax' (Eletriptan) Sumavel DosePro Inject (Sumatriptan) Zomig/ZMT (Zomitriptan)</p> <p><u>Ergotamines / Other:</u> Cambia Powder (Diclofenac Potassium) Ergomar (Ergotamine) Migral (Isometheptene) Migranal Nasal (Dihydroergotamine)</p>

Neurologic Agents

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
<p>Alzheimer's Agents</p> <p><u>AchE Inhibitors</u> Donepezil / Aricept[^] Galantamine / Razadyne/ER Pyridostigmine / Mestinon Rivastigmine / Exelon Capsule</p>	<p><u>AchE Inhibitors</u> Aricept 23' only (Donepezil)</p> <p><u>NMDA Receptor Antagonists</u> Namenda' (Memantine)</p>	<p><u>AchE Inhibitors</u> Exelon Patches' (Rivastigmine) Prostigmin (Neostigmin)</p> <p><u>NMDA Receptor Antagonists</u></p>
<p>Anticonvulsants</p> <p>Carbamazepine / Tegretol Clonazepam / Klonopin Divalproex Sodium – Depakote/ER Ethosuximide / Zarontin Gabapentin / Neurontin, Gabarone Lamotrigine / Lamictal Levetiracetam / Keppra Mephobarbital / Mebaral Oxcarbazepine / Trileptal Phenobarbital / Phenobarbital Phenytoin / Dilantin Primidone / Mysoline Topiramate / Topamax Valproic Acid / Depakene Zonisamide / Zonegran</p>	<p>Dilantin 30mg/50mg ONLY (Phenytoin) Lamictal XR/ODT' (Lamotrigine) Lyrica' (Pregabalin) Neurontin Suspension Only (Gabapentin) Tegretol XR 100mg only (Carbamazepine)</p>	<p>Carbatrol (Carbamazepine) Celontin (Methsuximide) Diastat Acu-Dial Gel (Diazepam) Equetro (Carbamazepine) Felbatol (Felbamate) Gabitril (Tiagabine) Keppra XR (Levetiracetam) Phenytek (Phenytoin Sodium') Sabril (Vigabatrin) Stavzor (Valproic Acid)</p>
<p>Fibromyalgia Agents</p>	<p>Lyrica' (Pregabalin) Savella' (Milnacipran)</p>	<p>Cymbalta (Duloxetine)</p>
<p>Neuropathic Pain Agents</p> <p>Gabapentin / Neurontin</p>	<p>Lyrica' (Pregabalin)</p>	<p>Cymbalta (Duloxetine)</p>

Blood Modifiers

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
Anticoagulants /Anti-10A/Thrombin Inhibitors Warfarin Sodium / Coumadin Heparin Sodium	Pradaxa' (Dabigatran Etexilate)	Arixtra (Fondaparinux)
Heparin-Related Products		Fragmin (Dalteparin) Innohep (Tinzaparin) Lovenox (Enoxaparin)
Platelet Aggregation Inhibitors Anagralide / Agrylin Cilostazol / Pletal Dipyridamole / Persantine Pentoxifylline / Trental Ticlopidine / Ticlid	Aggrenox' (Dipyridamole / Aspirin) Plavix (Clopidogrel)	Effient (Prasugrel)
Hematopoietic Agents <u>Hematinics</u> <u>Iron Replacements (Orals)</u> Ferrous Sulfate, Ferrous Gluconate, Folic Acid Ferrous Fumarate / Chromagen, Ferrogen Conison, Niferex	<u>Hematinics</u> <u>Iron Replacements (Orals)</u>	<u>Hematinics</u> Aranesp (Darbepoetin) Epogen (Epoetin) Procrit (Epoetin) <u>Iron Replacements (Orals)</u> Albafort (B12 Complex) Chromagen FA (Ferrous Fum/Complex) Hematogen (Ferrous Fum/Complex) Hematron (Ferric Am/Complex) Niferex Forte/150/PN (Multi-Vitamin) Irofol (Iron/Folic Acid) Repliva (Iron supplement) Siderol (Iron/Vitamin Complex)
Other Products		Lestyda (Tranexamic Acid)

Cardiovascular (Heart) Agents

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
<p>Alpha & Beta Blockers</p> <p><u>Alpha Blockers</u> Doxazosin / Cardura Prazosin / Minipress Terazosin / Hytrin</p> <p><u>Beta Blockers</u> Acebutolol / Sectral Atenolol / Tenormin Betaxolol / Kerlone Bisoprolol / Zebeta Metoprolol / Lopressor, Toprol/XL Nadolol / Corgard Pindolol / Visken Propranolol / Inderal/SR/LA Sotalol / Betapace/AF Timolol / Blocadren</p> <p><u>Alpha-Beta Blocker</u> Carvedilol / Coreg Labetolol / Normodyne, Trandate</p>	<p><u>Alpha Blockers</u></p> <p><u>Beta Blockers</u></p> <p><u>Alpha-Beta Blocker</u> Coreg CR' (Carvediol)</p>	<p><u>Alpha Blockers</u> Dibenzyline (Phenoxybenzamine)</p> <p><u>Beta Blockers</u> Bystolic' (Nebivolol*) Innopran XL (Propranolol) Levatol (Penbutolol)</p> <p><u>Alpha-Beta Blocker</u></p>
<p>Antihypertensive Combinations, Miscellaneous</p> <p>Atenolol/Chlorthalidone / Tenoretic Bisoprolol/HCTZ / Ziac Metoprolol/HCTZ/ Lopressor HCT</p>		<p>Corzide (Nadolol/Bendroflumethiazide) Timolide (Timolol/HCTZ)</p>
<p>Calcium Channel Blockers:</p> <p>Amlodipine / Norvasc Diltiazem / Cardizem/CD Diltiazem / Dilacor XR, Tiazac Felodipine / Plendil Nicardipine / Cardene Nifedipine / Adalat/CC, Procardia/XL, Nifedipine/ER Verapamil / Calan/SR, Isoptin/SR, Verelan/ PM</p>		<p>Cardene SR (Nicardipine) Cardizem LA (Diltiazem) Covera HS (Verapamil) Dynacirc/CR (Isradipine) Nimotop (Nimodipine) Sular (Nisoldipine)</p>

Cardiovascular (Heart) Agents (Continued)

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
<p>ACE Inhibitors</p> <p>Benazepril / Lotensin Captopril / Capoten Enalapril / Vasotec Fosinopril / Monopril Lisinopril / Prinivil, Zestril Moexipril / Univasc Quinapril / Accupril Perindopril Erbumine / Aceon Ramipril / Altace Trandolapril / Mavik</p> <p>ACE Inhibitors w/ Diuretics</p> <p>Benazepril/HCTZ / Lotensin HCT Captopri /HCTZ / Capozide Enalapril/HCTZ / Vaseretic Fosinopril/HCTZ / Monopril HCT Lisinopril/HCTZ / Prinzide, Zestoretic Moexipril/HCTZ / Uniretic Quinapril/HCTZ / Accuretic</p> <p>ACE Inhibitor / CCB Combination</p> <p>Benazepril/Amlodipine / Lotrel Trandolapril/Verapamil / Tarka</p>	<p>Lotrel (Benazepril/Amlodipine) <i>(5/40mg and 10/40mg only)</i></p>	<p>Lexxel (Felodipine/Enalapril) Tarka (Trandolapril/Verapamil 1/240 only)</p>
<p>A-2 Antagonists (ARBs)</p> <p>Losartan / Cozaar</p> <p>A-2 Antagonists (ARBs) w/ Diuretics</p> <p>Losartan/HCTZ / Hyzaar</p>	<p>Benicar' (Olmesartan) Diovan' (Valsartan)</p> <p>Benicar HCT' (Olmesartan/HCTZ) Diovan HCT' (Valsartan/HCTZ)</p>	<p>Atacand (Candesartan) Avapro (Irbesartan) Micardis (Telmisartan) Teveten (Eprosartan)</p> <p>Atacand HCT (Candesartan/HCTZ) Avalide (Irbesartan/HCTZ) Micardis HCT (Telmisartan/HCTZ) Teveten HCT (Eprosartan/HCTZ)</p>
<p>A-2 Antagonists (ARBs) / CCB Combination</p>	<p>Azor' (Olmesartan/Amlodipine) Exforge' (Valsartan/Amlodipine)</p>	<p>Twynsta (Telmisartam/Amlodipine)</p>

Cardiovascular (Heart) Agents (Continued)

GENERIC DRUGS	PREFERRED BRANDS	NON-PREFERRED BRANDS
Renin Inhibitors	Tekturna' (Aliskiren Hemifumarate)	
Miscellaneous Combinations	Amturnide' (Aliskiren/Amlodipine/HCTZ) Tekamlo' (Aliskiren/Amlodipine) Tekturna HCT' (Aliskiren/HCTZ) Tribenzor' (Olmesartan/Amlodipine/HCTZ) Valturna' (Aliskiren/Valsartan)	
Antiarrhythmics / Anti-Ischemic Amiodarone / Cordarone/ Pacerone Disopyramide / Norpace/ Norpace CR 150mg Flecainide / Tambocor Mexiletine / Mexitil Procainamide / Pronestyl/SR Propafenone / Rythmol Quinidine Gluconate / Quinaglute	Multaq' (Dronedarone)	Corvert (Ibutilide Fumarate) Norpace CR 100mg (Disopyramide) Pacerone 100mg (Amiodarone) Ranexa (Ranolazine) Rythmol SR (Propafenone)
Cardiac Glycosides Digoxin / Digitek, Lanoxin		
Vasodilators, Coronary, Nitrates Isosorbide Dinitrate / Isordil, Sorbitrate, Isochron Isosorbide Mononitrate' / ISMO, Imdur, Monoket Nitroglycerin (Discs) / Nitrodisc Nitroglycerin' (Patch) / Nitro-Dur, Minitran	Nitrolingual' (Nitroglycerin Spray) Nitrostat (Nitroglycerin Oral)	Bidil (Isosorb Dinitrate/Hydralazine) Dilatrate-SR (Isosorbide Dinitrate) Nitro-BID (Nitroglycerine) NitroMist (Nitroglycerin)
Vasodilators, Sympatholytics Clonidine / Catapres Guanfacine / Tenex Hydralazine / Apresoline Minoxidil / Loniten Methyldopa / Aldomet Methyldopa/HCTZ / Aldoril	Catapres TTS Patch (Clonidine) Clorpres (Clonidine/Chlorthalidone)	Clonidine TTS Patch [SSG] / Catapres Hydra-zide (Hydralazine/HCTZ)

Antihyperlipidemic (Cholesterol) Agents
